Home page2

The screenshot shows a web browser window with the URL <https://thebishwa.github.io/P4-Project-Updates/>. The browser's address bar and tab bar are visible at the top. Below the tabs, there is a toolbar with various icons. The main content area displays a website for "GoMikeDesigns". The website features a large background image of a building with the word "ATLANTA" and "MADE" on it. Overlaid on the image is a circular profile picture of a person with the text "hi!" above it. Below the image, the text "I'm Mike." is displayed, followed by an orange "CONTACT" button. At the top of the website, there are navigation links for "Home" and "page2". The browser's developer tools are open, specifically the Lighthouse tab, which provides a performance audit of the site. The Lighthouse report shows the following scores:

Category	Score
Performance	69
Accessibility	81
SEO	94

Below the scores, a legend indicates the color coding for performance ranges: 0-49 (red), 50-89 (orange), and 90-100 (green). The "Performance" section is expanded, showing detailed metrics:

Metric	Value
First Contentful Paint	1.6 s
Speed Index	1.6 s
Time to Interactive	1.9 s
Total Blocking Time	0 ms
Initial Contentful Paint	0.4 s
Cumulative Layout Shift	0.000
